

Handbook on Import Risk Analysis for Animals and Animal Products

Volume 1. *Introduction and qualitative risk analysis*

Contents

Chapter 1: Introduction to import risk analysis	1
What is risk?	1
Approaches to risk analysis	2
Codex Alimentarius Commission	2
International Plant Protection Convention (IPPC).....	3
World Organisation for Animal Health (OIE).....	3
Import risk analysis for animals and animal products	5
World Trade Organization (WTO) Agreement on the Application of Sanitary and Phytosanitary Measures Agreement (the SPS Agreement) (1994)	5
Types of risk analysis addressed in the SPS Agreement.....	6
Factors to take into account in a risk analysis.....	6
Evaluating risk	7
Evaluating disease or pest risks individually.....	7
Evaluating disease or pest risks according to the measures that might be applied	7
Striving for objectivity in a risk analysis.....	8
Dealing with insufficient information	8
Equivalence	8
Notifying other WTO Members.....	8
Co-ordination and communication	9
<i>Terrestrial Animal Health Code and Aquatic Animal Health Code.....</i>	9
Chapter 2: Managing a risk analysis project	11
Conducting the risk analysis	11
The team approach	11
Hazard identification	12
Risk assessment	12
Risk management	12
Risk communication	13
Scientific review.....	13
Relationship between risk assessors and risk managers	14
Putting risk analysis outcomes into practice.....	14
Training.....	14
Conclusion.....	14
Developing a risk communication strategy	14
Determining the scope of a risk analysis.....	15
The OIE risk analysis framework.....	17
Terminology.....	19
Acceptable risk.....	20

Transparency	21
Uncertainty and variability	22
Presenting the results	23
WTO notification.....	25
External risk analyses	26
Updating risk analyses	26
Quantitative methods complement qualitative methods	27
Semi-quantitative methods	27
Scenario trees	28
Chapter 3: Applying the OIE risk analysis framework	31
Hazard identification	31
Sources of information for hazard identification	35
Risk assessment	35
Release assessment	35
Sources of information for release assessment.....	38
Exposure assessment	38
Sources of information for exposure assessment.....	41
Consequence assessment	41
Sources of information for consequence assessment.....	44
Risk estimation	45
Risk management	46
Risk evaluation.....	47
Option evaluation.....	47
Risk communication	49
Who is involved in the risk communication process?	49
When does the risk communication process begin?	50
Factors to be considered when developing a risk communication strategy	50
The goals of risk communication	51
Barriers to effective risk communication.....	52
Chapter 4: Conclusion	55
Index	57
